Career Opportunity - Planning Forester - Campbell River

Forsite, an innovative forest and land management company, with 9 locations throughout B.C. is looking for candidates interested in a challenging position in the area of forest and land management planning out of our Campbell River, B.C. office.

At Forsite we excel by being a flexible, adaptable, people-oriented business. We are successful through creating value for our customers and opportunities for our employees. Through our commitment to forest land management in BC we create an environment that challenges our staff and provides opportunity for personal and professional growth.

As a Planning Forester you will be responsible to:

- Work with clients and Forsite project managers to develop tactical and/or strategic level forest plans or processes including but not limited to EBM implementation, 20 yr. operational plans, SFM planning, forest stewardship planning, landscape unit planning, access management planning, wildlife management planning, etc.
- Lead project teams in the provision of Forsite's planning and analysis services
- Interact closely with Forsite technical specialists in biology, GIS and visual analysis in the delivery of forest planning projects.
- Support the operational implementation of FSP's and timber development within the professional reliance-based framework of FRPA
- Support forest, land, water and recreation development project management and administration
- Develop meaningful relationships with stakeholders and First Nations in the implementation of forest management

If you are interested in this challenging and fulfilling position with a competitive compensation and benefits package, please email a cover letter and resume, with "Planning Forester" in the subject line, to careers@forsite.ca.

Requirements:

- Post-secondary education with a degree in a relevant discipline.
- An RPF registered with the ABCFP with a minimum of 10 years of directly relevant experience on the B.C. coast.
- Broad understanding and implementation of general forestry practices in Coastal B.C.
- Strong understanding of the Forest Act, Forest & Range Practices Act (FRPA) and related regulation and policy impacting forest planning and management in Coastal B.C.
- Proven expertise in the use of analytical tools and GIS.
- Solid understanding of, and experience in, operational planning (cut block/road development processes) and operational silviculture planning and implementation

In addition, you should demonstrate the following:

- A professional, friendly and courteous manner, being service & team oriented.
- Keen project management experience and skill
- Problem solving skills, initiative, and an intuitive ability.
- Strong organizational skills and technical writing skills.
- Self-direction, flexibility and the ability to work under limited direct supervision.

Only candidates selected for interviews will be contacted.
